PROFILE

Young frontend developer focused on development for Apple devices and mainly trained in development with Xcode and Swift.

I have participated in the Erasmus+ project for young entrepreneurs, where we received entrepreneurship training in four countries (Spain, Romania, the United Kingdom, and Portugal), and I am constantly learning to build my professional profile and stay up to date on the latest technologies with a focus on user experience.

EDUCATION

Vision Developer Program & Swift Fullstack course:

- ❑ Apple Coding Academy training courses led by Julio César Fernández Muñoz for full-stack professionals (Swift, UIKit, SwiftUI, Xcode, Vapor, VisionOS, reactive programming, MVVM, MVP, etc.)
- ❑ Graduated in 2024

Bachelor in Computer Science:

- ❑ Studied at the CESTE International Business School and validated by the University of Wales.

Bachillerato:

- ❑ Studied at Santa Ana and José Manuel Blecua Institute.
